IMRAN ALI

WEB DEVELOPER (ANGULAR & NODE.JS)

Swat, Pakistan │ +923477671352 │ imranali23322@gmail.com
https://imran-ali-chi.vercel.app/

SUMMARY

An independent, self-motivated, and hardworking individual with 1 year of hands-on experience in software development, including Angular, Node.js, Express.js, and MongoDB, committed to achieving goals

SKILLS

Angular, HTML, CSS, Tailwind CSS, SCSS, Bootstrap, JavaScript, TypeScript, ES6, Node.js, Express.js, MongoDB, RESTful API Integration & Development, Python, Django, AI Integration, Firebase, Git,

WORK EXPERIENCE

Web Developer Intern, Beetechnica   **Feb 2025 - Present**

Developed and maintained web applications using Angular for the front end and Node.js/Express.js for the back end. Implemented RESTful APIs and integrated third-party services. Worked on responsive UI designs to enhance user experience and accessibility. Gained hands-on experience with version control systems like Git.

Projects:

1. Natural Language to SQL Query Generator and Query Explanation in Simple Natural Language
2. ChatBot Application
3. Portfolio Website (Dynamic)
4. The Recipe Food App
5. Employee Management System
6. Multilingual Website
7. Note Taking Application
8. Static Portfolio Website
9. Nexcent UI (angular)
10. Keefer UI
11. Cathub UI

Work and Self-Learning, (Before (Graduation)   **Aug 2023 - Dec 2024**

Before graduation, I focused on self-learning in web development using Python, Django, and RESTful APIs. I built small projects to apply backend concepts and strengthen my coding skills. This practice improved my understanding of server-side logic and independent problem-solving.

Projects:

1. Job portal Web Application
2. Teach Blog
